From the group

Since people are all triggered over what's NTR and what's not, here's a helpful link for you:

<https://web.archive.org/web/20150102232815/http://www.tsurupeta.info/content/this-loser-is-you-appeal-of-netorare>

Technically the MC didn't have sex with Sygin, so it's still not netorare, but even if he did, it would be netori, since it's the MC doing the stealing. However if you're not as pedantic, you can regard it as netorare if you identify with Hodr, since he is the one that feels the worst about this. The point is - these types of arguments are unproductive.

So just enjoy the manga, and don't go full keyboard warrior mode.

CabalCrow: Harambe didn't die for THIS shit.

P.S.: We got a new proofreader.
